As a dealer, engaging in the Antiques & Collectible retail market in Virginia, Delegate Joe T. May and the Virginia Retail Federation invite you to participate in a discussion on the issue of fakes, fraud and false advertising in the antiques and collectible marketplace. Included on the agenda will be the value of obtaining a legal definition of the words "antique," "vintage" and "collectible" in the state of Virginia and the initiation of a certification program for professional antiques dealers. This meeting is in response to the alarming number of fake antiques and collectible flooding the retail market, and is an effort to protect both consumers and dealers of authentic antiques and collectibles.
